Subject No. 47.
Kadur Taluk Police insufficient.

Summary of discussion.—The strength of the Kadur Taluk Police is insufficient for Taluk requirements. At least 100 Constables are necessary.

Dewan's reply.—The subject will be referred to the Inspector General of Police for his remarks and suggestions.

Subject No. 48.
Musafarkhana required at Birur.

Summary of discussion.—A musafarkhana is badly required at Birur which is a large market place, and an important Railway Station.

Dewan's reply.—The project is under consideration in the D. P. W. in communication with the Deputy Commissioner. Mr. Coffee Planter Courpalais seems to have proposed to build one here at his own cost.. Inquiry will be made whether he is going to do so.

Subject No. 49.
Chattram required at Kadur.

Summary of discussion.—At Kadur also a chattram is required. It should be a large building near the Railway Station. Part of it can be used as Musafarkhana (lodging for travellers) and part as a feeding chattram, the latter being transferred to it from its present place in the Fort where it is established in an old decaying building past repair.

Dewan's reply.—Noted for consideration in the D. P. W. in consultation with local officers and action as funds become available.

Subject No. 50.
Proceedings of the Dasara Representative Assembly.

Summary of discussion.—Each person qualified to become a member of the Representative Assembly should be allowed a copy of the Proceedings of the Assembly. These Proceedings should also be available for all others who may wish to buy it.

Dewan's reply.—We may supply a copy to each member present in a particular year. We can have them sold also. The Superintendent of the Government Press will be instructed accordingly.

Subject No. 51.
Model Farms required at Head-quarters of Districts.

Summary of discussion.—A model farm should be established at the Head-quarters of each District. We only hear and even read in books written by Mr. Harman and Mr. Benson of labor economising machines like sugar-cane crushers and of the benefits of deep ploughing, &c. But very few of us have seen a demonstration of these benefits. A model farm would afford practical instruction, and the Farm Superintendent will lecture and instruct raiyats in improved methods of agriculture.

Dewan's reply.—The subject is under the consideration of Government. Government are not sanguine of the utility of model farms in the present state of agriculture. Government will however as announced in the course of last year's Proceedings (*vide* Subject No. 215) be glad to give scholarships to young men of the raiyat class who may wish to be educated in the Agricultural College at Madras.
